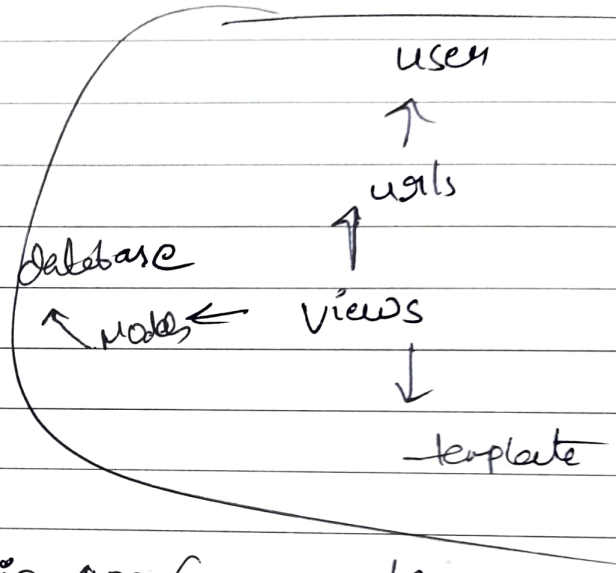
Model.py

Create user :-

python manage.py migrate
python manage.py createsuperuser

my username & password :-

asritha
Asritha@2003



→ models will be present in app (yours ⇒ demoapp)

→ then inside demoapp
admin.py → import your class from models and also register it.

→ models.py → create your model

→ python manage.py migrate

→ python manage.py runserver.
